Ask Nathan about Plants
DEER DON'T EAT!

NATHAN'S TOP TIPS WATERING PLANTS THIS SUMMER:

1. **Mulch, Mulch, Mulch!** Mulching around the base of plants' roots will help to maintain soil moisture and keep those precious roots cool.
2. **Water Infrequently but Deeply.** Don't just sprinkle a few drops of water around your plants everyday, but let a slow drip saturate the soil deeply a few times a week.
3. **Irrigation Systems Can Be Helpful** If...the system is appropriately distributing water and is in working order. Make sure your system is working perfectly!

**Perennials Provide Great Color
for Years to Come!**

Check Out Our Plant
Diagnostic Center and
Pharmacy for Solutions!

We have a variety of mulching materials, soil amendments to help moderate soil moisture and temperature and keep weeds out of your garden.

Let us diagnose your plant troubles in our Bonide Diagnostic Center.
