Let us diagnose your plant troubles in our Bonide Diagnostic Center.

We have a variety of mulching materials, soil amendments to help moderate soil moisture and temperature and keep weeds out of your garden.

NATHAN'S TOP TIPS FOR KEEPING ROSES OUTSTANDING THROUGH DOG DAYS!

1. Deadhead Roses Frequently. As blossoms fade, remove them from the plant to encourage more blooming. Cut below the "spray" to keep plants looking their best.
2. Feed with a well balanced fertilizer. Our "nursery special" fertilizer does the trick! It's well-balanced and releases nutrients as the plants need them.
3. Keep bugs and diseases in check. Some roses are disease resistant but all are susceptible to bugs. Disease spots and insects can be prevented or controlled with our Bonide fungicides, insecticides, and Rose Rx treatments. Organic controls also available!

Our Lanier Natives line of plants are native to the continental US and are great for:

Lanier natives

- Attracting pollinators
- Bird gardening
- Natural plantings
